## SUMMARY

MEAN Stack Developer with **4 years of overall experience**, specializing in **Angular (4 years)** and backend development using **Node.js, Express.js, and MongoDB (1 year)**. Experienced in building scalable, high-performance web applications, developing reusable UI components, and integrating RESTful APIs. Strong understanding of JavaScript, TypeScript, application architecture, and Agile development practices, with a focus on clean code and maintainable solutions.

## SKILLS

**Frontend Technologies:** Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Angular Material, Responsive Web Design

**Backend Technologies:** Node.js, Express.js, MongoDB, RESTful API Development

**Testing & Tools:** Unit Testing (Jasmine & Karma), Swagger, Git, GitHub, npm, Visual Studio Code, CI/CD Pipelines, Figma, Jira

**Architecture & Methodologies:** Component-Based Architecture, MVC Architecture, Agile / Scrum

## EXPERIENCE

### Software Engineer - Contract Roles

**Productiva IT Solutions Pvt. Ltd. • NeoSOFT Pvt. Ltd. | 2024 - 2025**

- Led a team of developers, **assigning tasks and resolving blockers** to ensure smooth project delivery.
- Developed and maintained **Angular components** and **Node.js/Express backend APIs**, integrating with **MongoDB** for full-stack functionality.
- Built and maintained a **shared component/library**, improving **reusability and efficiency** across projects.
- Resolved critical issues and implemented **hot-fixes**, maintaining application stability, quality, and seamless user experience.

### Software Developer

**Ityx India Pvt. Ltd. | 2021 - 2023**

- Resolved **Jira-reported issues** efficiently, ensuring minimal downtime and improved application stability.
- Collaborated with **UX developers** to refine feature requirements and implement **user-centric Angular components**.
- Developed and executed **unit tests using Jasmine & Karma**, improving code coverage and maintaining high code quality.
- Participated in **CI/CD pipeline processes**, ensuring smooth and timely deployment of application updates.

### Web Developer

**Zplus Cyber Secure Tech | 2020 - 2021**

- Collaborated with a **US-based team** to develop and maintain **Angular components** and responsive web pages aligned with the project roadmap.
- Delivered **high-quality, user-centric frontend solutions** by incorporating stakeholder feedback and maintaining project transparency.
- Worked closely with **UX/UI designers** to refine features and improve user experience.

### Career Note

*Some roles were **contract- or project-based**, which is why durations are short. I consistently delivered **high-impact modules** and moved on after successful project completion.*

## EDUCATION

**Master of Computer Applications (MCA) | 2024**

Savitribai Phule Pune University, Pune, India | **CGPA: 7.85**

**Bachelor of Computer Applications (BCA) | 2019**

Savitribai Phule Pune University, Pune, India | **60%**

## PROJECTS

---

### Navyojana | Productiva IT Solutions Pvt. Ltd. | January 2025 - July 2025

**Tech Stack:** Angular, JavaScript(ES6+), TypeScript, Node.js, Express.js, MongoDB, CSS, Tailwind, REST APIs

- Built a **shared library** to streamline UI re-usability, reducing duplicate development by **40%**.
- Improved application performance with lazy-loading and optimizations, achieving **~35% faster load times**.
- Led junior developers, resolved blockers, and ensured consistent coding standards.

### AI Platform | ITyX India Pvt. Ltd. | October 2021 - August 2023

**Tech Stack:** Angular, JavaScript(ES6+), TypeScript, RxJS, CSS, Bootstrap, REST APIs

- Developed UIs for document upload, preview, verification, and multi-step navigation, improving task completion flow by **~25%**.
- Optimized UI performance using lazy loading, code splitting, caching, and OnPush, resulting in **~28% faster page interactions**.
- Collaborated with backend, QA, and design teams to deliver stable, high-quality releases.

### Creatics US | Freelance | July 2024 - December 2024 | [creatics.org/cinejoy](https://creatics.org/cinejoy)

**Tech Stack:** Angular, JavaScript(ES6+), TypeScript, RxJS, CSS, Bootstrap, REST APIs

- Developed scalable UI modules for movie listings, search, and user dashboards, improving page performance by **28%**.
- Integrated role-based access and API-driven dynamic content loading.
- Improved application performance with lazy-loading and optimizations, achieving **~35% faster load times**.

## ACHIEVEMENTS

---

### Letter of Appreciation

NeoSOFT Pvt. Ltd. • 2024

### Star Performer Award

Zplus Cyber Secure Tech • 2021
