SUMMARY

Frontend Developer (Angular Specialist) with 4 years of experience building scalable, high-performance enterprise applications. Skilled in Angular (8-19) and proficient in React, enabling flexible, modern full-stack development.

SKILLS

Frontend: Angular (v8-19), ReactJS, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS

State Management: Signals (Angular 17+), Redux, NgRx

Version Control: Git, GitHub

Build & Deployment: CI/CD, GitHub Actions

Tools & IDEs: VS Code, Swagger, Figma, Jira

Others: Responsive Web Design, Cross-Browser Compatibility, Unit Testing (Jasmine, Karma)

EXPERIENCE

Software Engineer - Contract Roles

Productiva IT Solutions Pvt. Ltd. • NeoSOFT Pvt. Ltd.   **2024 - 2025**

- Led a team of developers, assigning tasks and resolving blockers for smooth delivery.
- Built and maintained a shared library to improve re-usability and efficiency across projects.
- Resolved critical issues and managed hot-fixes to ensure application stability and quality.

Software Developer

Ityx India Pvt. Ltd.   **2021 - 2023**

- Resolved Jira reported issues with timely and effective fixes.
- Collaborated with UX developers to refine feature requirements and ensure accurate implementation.
- Developed and executed unit tests to maintain code quality and workflow efficiency.

Web Developer

Zplus Cyber Secure Tech   **2020 - 2021**

- Collaborated with the US-based team to develop and maintain software features aligned with the project road map.
- Delivered high-quality solutions by incorporating stakeholder feedback and maintaining project transparency.

Career Note

Some of my roles were contract-based or project-based assignments, which is why some durations are short. I delivered high-impact modules and moved on after successful project delivery.

PROJECTS

Navyojana | Productiva IT Solutions Pvt. Ltd. | January 2025 - July 2025

Tech Stack: Angular, TypeScript, RxJS, CSS, Bootstrap, REST APIs

- Built a **shared Angular library** to streamline UI re-usability, reducing duplicate development by **40%**.
- Improved application performance with lazy-loading and optimizations, achieving **~35% faster load times**.
- Led junior developers, resolved blockers, and ensured consistent coding standards.

AI Platform | ITyX India Pvt. Ltd. | October 2021 - August 2023

Tech Stack: Angular, TypeScript, RxJS, CSS, Bootstrap, REST APIs

· Developed UIs for document upload, preview, verification, and multi-step navigation, improving task completion flow by **~25%**.

· Optimized UI performance using lazy loading, code splitting, caching, and OnPush, resulting in **~28% faster page interactions**.

· Collaborated with backend, QA, and design teams to deliver stable, high-quality releases.

Creatics US | Freelance | July 2024 - December 2024 | creatics.org/cinejoy

Tech Stack: Angular, TypeScript, RxJS, CSS, Bootstrap, REST APIs

· Developed scalable UI modules for movie listings, search, and user dashboards, improving page performance by **28%**.

· Integrated role-based access and API-driven dynamic content loading.

· Improved application performance with lazy-loading and optimizations, achieving **~35% faster load times**.

EDUCATION

Bachelor of Computer Application

 VCACS College, Pune, India • 2020

CERTIFICATIONS

Letter of Appreciation

NeoSOFT Pvt. Ltd. • 2024

Star Performer Award

 Zplus Cyber Secure Tech • 2021
